## REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

We are proud of our students' accomplishments during the past school year. The hard work of our students and faculty has resulted in improvements in many areas. West-Oak High School was recognized as a Palmetto Silver Award winning school for 2007. The class of 2007 received over \$3 million in scholarship offers, an outstanding accomplishment!

Participation in extracurricular activities at West-Oak has been steadily increasing. Our students were recognized for outstanding performances as they competed with other schools at the state and national level. West-Oak students earned individual or team championships in volleyball, tennis, and wrestling—with two individual state champions!

Student achievement continues to improve at West-Oak High School. In addition to the increases in student achievement on the HSAP which was administered this year, we have set a two-year goal for the faculty and students which focuses on continuing to raise performance levels, culminating with a 97.5% passage rate for all students by the spring administration in 2009, with substantial increases in the number of proficient and advanced students. Senior parents of college-bound students have also been encouraged to participate in SAT planning sessions sponsored by the guidance department. The guidance counselors have increased communication to students through the development of a weekly email sent to participating parents that includes upcoming standardized testing dates, scholarship deadlines, and other important news.

This year West-Oak teachers and guidance counselors continued to develop and improve the planning process with our students. This planning will help our students set graduation goals and identify their personal interests when choosing career clusters. Beginning in the fall of 2008, we will expand our Senior Projects into a four-year project that begins in the ninth grade and aligns itself with the individual graduation planning process. The Freshman Academy foundations program has been implemented as an additional transition tool to help students find success in English/language arts and Mathematics.

Beginning in the fall of 2008, West-Oak High School will create a Professional Learning Community for our faculty. This program will allow teachers to focus on the shared creation of best practices, shared decision-making, and improved planning and communication. We want this program to become a model for our students—allowing them to see how an effective community of learners can achieve!

West-Oak High School will continue to grow next year. We will be making a move to AAA for the first time in several years. This move will provide a new standard in terms of athletic competition. We want to increase the bar, not only for athletics, but for all aspects of our school. We plan to continue working with our students, parents, and community to improve the educational opportunities at West-Oak High School in the years to come. Our goal is simple—we want to provide the absolute best education for our students.
